We joined the volunteer activity on 21st June at HOUDATSU SHIMIZU-CHO in Ishikawa prefecture. Even though it was really sunny and hot day, around 160 people came and cleaned up 3km of the beach. We were surprised that there was lots of garbage which are written Korean Character!!

## BEACH SWEEPING

This activity has organized by Sr. An and students of SOUTH SEOUL UNIVERSITY.

Sr. An was inspired by finding many garbage which had been washed ashore from Korea at Japanese shore in 2006. He called on students to clean up the beach at first, but it is one of the education courses to learn the environment nowadays.

How did we get to know each other?

Sr. An contacted to President Kondo around 2 years ago. He had found Homepage of Kaiho Sangyo by chance and got an interest in our concept for environment. It was just start of our relationship.

Finally as they come to Ishikawa, we approved and could take action this time.

Now we understand that the environmental problem is not only for each countries or places.

You will find garbage on the beach in your country easily, won't you?

Thanks to this activity, we learned we should care each people, countries and our earth more.
