BBQ at Chirihama Sea

Hello everyone! How are you?

We had an event with KAIHO STAFF and some of their family on 23rd September.

Do you know JIBIKI AMI? It is a net to catch fishes from the sea. On that day, fisher men prepared it for us, so we just dragged!! As you can see in the picture below, we caught massive amount of fishes finally!! Most of people experienced it first time so it was very interesting. We ate some at BBQ after that. Some buyers who are staying in our company now joined us, too (2 from Jordan, 1 from Russia, 1 from Pakistan, 1 from Thailand, 1 from Dominican rep.). We hope more customers will get an interest in our company and enjoy staying here together.

MARKET in JAPAN

This is small information of Japanese market. Happily, it tends to recover slowly and PD (Physical Distribution) of materials is increasing little by little. However it was concerned that the compatibility between PRICE and STOCK will be lost at International meeting for LME Aluminum in Germany which was held on 14th – 16th Sep. It means we cannot expect how it will be at all!!

Regarding Iron, we get information that it comes down in price a little. We will get more information.
