### Taue (Rice planting) season has come!

9, May, 2010, in a beautiful day we planted rice in our own rice paddy. We have started this project since 2008, so it has been the first experience "Taue" for us. Our rice paddy is used neither agrichemical nor chemical fertilizer and all work were entirely done by hand. Though we were so exhausted, lunch after work was soooo yummy!! (Actually this was the most fun!!) We wish delicious rice grows up...

We have been growing strawberries, too. They're cute!!

Hello I'm Natsuko. I am a member of KAIHO SANGYO from May. My favorite word is "ARIGATO" which means "Thank you". I always make sure to tell "ARIGATO" to everyone. I hope to learn the contents of work and would like to assist customers soon. I work with pride as a member of KAIHO SANGYO.
